

AMERICAN ORCHID SOCIETY SPECIAL ANNUAL AWARDS

NAX BOTANICAL TROPHY

This retired prestigious award, the first of the AOS annual awards, was established in 1964 to be granted each year by the trustees of the AOS to the Exhibitor of the most outstanding species awarded by the Society. Micky and David Nax's love of orchid species has been uniquely preserved in some 700 species Mickey cast in gold. Twelve of these solid gold orchids are encased in the acrylic Nax Trophy, which was donated to the AOS in 1964 and is now permanently housed at AOS headquarters. The Nax winner's name and that of the winning plant is inscribed with those of past recipients on a plaque that accompanies the trophy, and recipients of this award receive a beautifully inscribed certificate from the AOS. This award was retired in 2001.

THE ROBERT B. DUGGER AWARD (6.2.11.10)

The Robert B. Dugger **Odontoglossum** Award, which was established by the friends of Robert B. Dugger and members of the Odontoglossum Alliance, has been presented by the AOS trustees since 1996. It recognizes the work of a man who was responsible for the 1980s renaissance in Odontoglossums. Dugger established new pathways in intergeneric breeding, and created more than 8,000 crosses. Plants, either species or hybrid, eligible for the Robert B. Dugger Award should have parentage that contains an Odontoglossum as defined by the taxonomy in place at the time the award was established, and have been awarded during the preceding calendar year. Examples of these species include the following: Odm. crispum/Onc. alexandrae, Odm./Onc. nobile (Odm. pescatorei), Odm./Onc. cirrhosum, Odm./Onc. spectatissimum, Odm./Onc. luteo-purpureum, and Odm./Onc. hallii. A plant may be simultaneously eligible for the Carpenter and Dugger awards; however, the plant may not win more than one of these Awards.
