

RESOURCES FOR ACHIEVING JUDGING COMPETENCY

Note: Contains resource references for *all* judges, not just students and associates. The first section has references to general resources; next has references for resources on Handbook and judging topics; and the last section is an index to references related to genera, species, hybrids and hybridizing. This will be updated from time to time.

RESOURCES FOR JUDGES

JOURNAL ARTICLES: JOURNALS WITH INDEXES

Archives of the *AOS Bulletin*, *Orchids & Lindleyana*: <http://www.aos.org/about-us/orchids-magazine.aspx>

Index to authors & titles for *The Orchid Digest*: <http://orchiddigest.org/pub.html#pastissue>

Index to *The Orchadian*, the journal of the Australasian Native Orchid Society. <https://anos.org.au/orchadian-articles-index/?iyear=Last+5+years&itag=All+content&isort=Issue&submit=select>

Index (searchable) to *Orchids Australia*, the journal of the Australian Orchid Council.:

<http://www.orchidsaustralia.com.au/index.php/orchids-australia/oa-search>

OTHER JOURNALS:

The Orchid Review. Royal Horticultural Society, UK.

CSA Journal. Cymbidium Society of America. (no longer publishing)

Orchids Australia. Journal of the Australian Orchid Council. <http://www.orchidsaustralia.com.au/> (also their awards)

Australian Orchid Review. Discontinued publication in 2020. Earlier issues had a large section on cymbidiums every month.

Phalaenopsis. International Phalaenopsis Alliance. <https://www.phal.org/journal.htm>

Slipper Orchid Alliance Journal. <http://www.slipperorchid.org/>

International Odontoglossum Alliance Newsletter. <http://www.odontalliance.org/journals/index.html> newer issues online & free

Malesian Orchid Journal. <https://nhpborneo.com/books/plants/>

OTHER MISCELLANEOUS BOOKS not listed under a topic:

Proceedings of the World Orchid Conference. These often have articles in them by authors that we do not see in English language journals or vendors that did not publish much elsewhere but who were significant in hybridizing paphs, phals, dendrobiums, etc. They can be a gold mine. Start with the 19th Conference in Miami, 2008 as a good example. (There is not one for the most recent South Africa WOC; the Ecuador WOC was mostly scientific.)

Webster. *The Orchid Genus Book: A study guide for the Orchid Family*. Older but has thousands of references for genera from books and journals. So useful for historical perspective. Wire bound.

Arditti. (Ed.). *Orchid Biology Reviews and perspectives*. Volumes 1-10. The earlier volumes are less expensive and have some useful articles.

Withner. (Ed) *The Orchids: A Scientific Survey*

Withner. (Ed) *The Orchids: Scientific Studies*

Mayr. *Orchid Names and their meanings*.

SPECIFIC RESOURCES ON JUDGING

THE HANDBOOK ON JUDGING

---apply to be a judge

“Is Color blindness a Fair Disqualifier for Judges”. Burian. Judges Forum. aos.org
