

American Orchid Society Judging
SHEET for BOTANICAL RECOGNITION

Awarded to previously unawarded species or natural hybrids deemed worthy of recognition because of rarity, novelty and educational value. No award of any kind may have been previously made to the species as a taxon. No point score is used but the award shall be granted only by the affirmative vote of at least two-thirds of the judging team assigned.

Place SD Date 9/7/21 Entry No. 1

Plant and clonal epithet Cleisostoma

RECOGNIZED FOR: nangongense
'Windflower'

Species not previously
recognized in the
records.
